Severe Weather							
Heat							
Tropical							

High Threat

Moderate Threat

Slight Threat

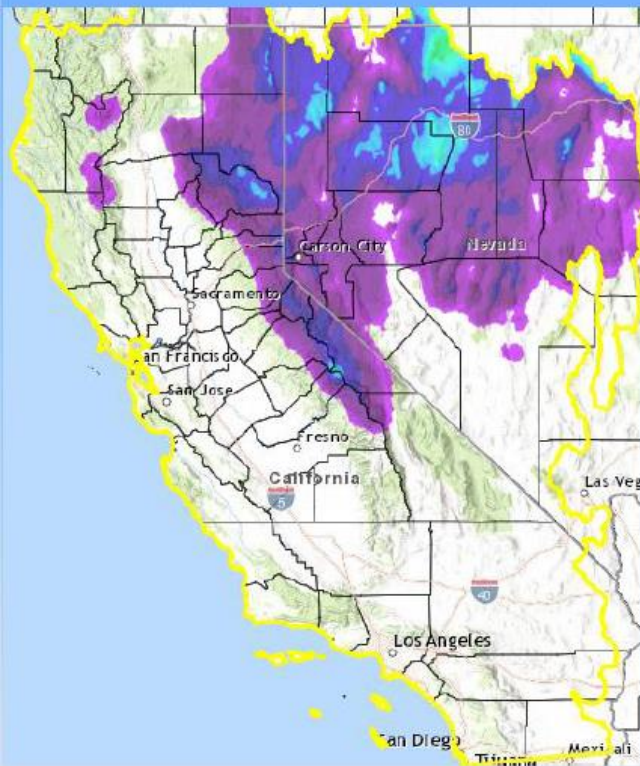

No Discernible Threat

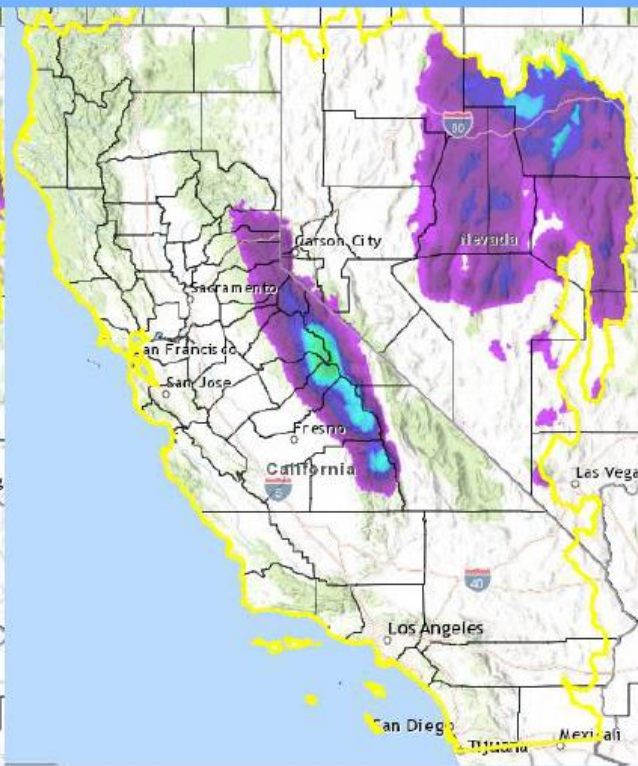

Days 1-3 Precipitation Forecast

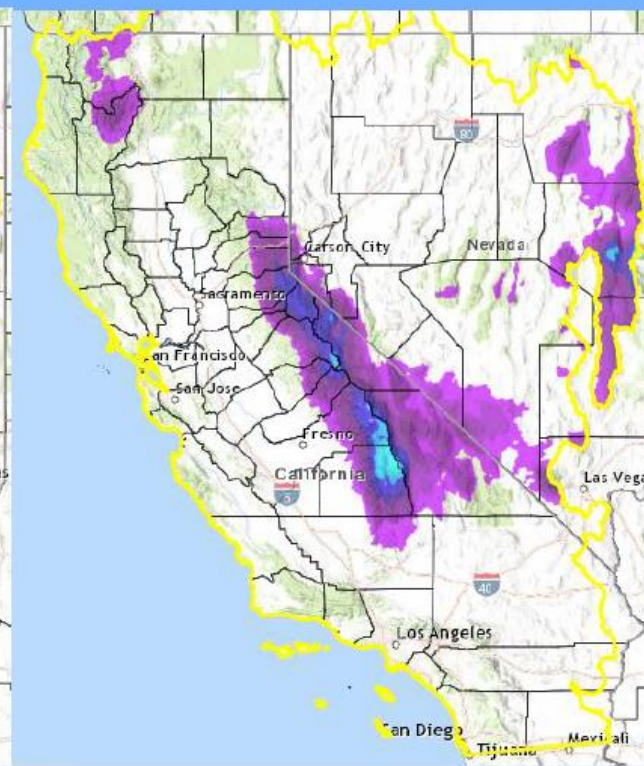

Precipitation (inches)

Thursday

Friday

Saturday

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

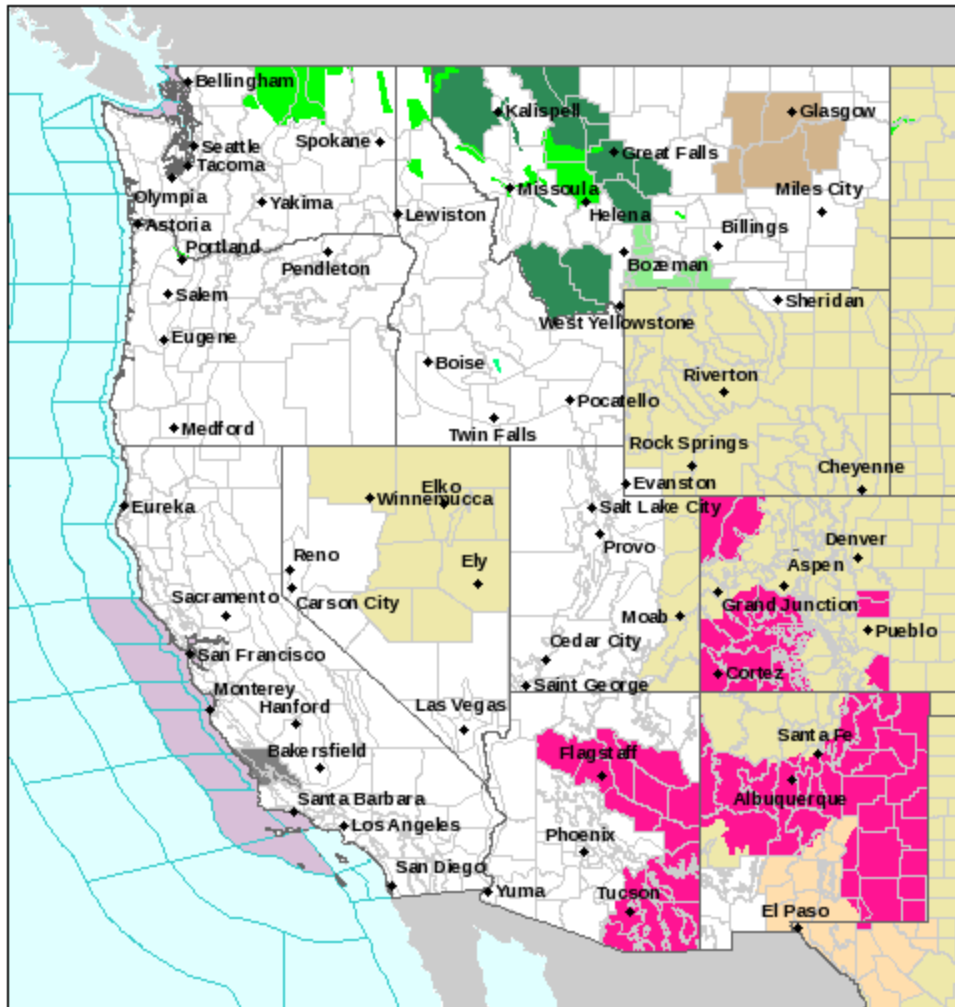

An unsettled weather pattern will continue over the region over the next 7 Days under a series of low pressure systems moving through. Showers and isolated thunderstorms will continue daily, mainly over the northern and eastern mountains. Friday into Saturday will likely be the driest period. However, there will still be showers/isolated thunderstorms over the Cascade/Sierra crest, especially around Tahoe southward. There will be little to no showers or thunderstorms in the greater Bay area and southern Sacramento Valley through the 7 day period. Temperatures will remain near to a bit above seasonable values all week with the warmest inland areas mostly in the low and mid 80s. Winds will generally be pretty light, but locally gusty in the afternoons, in mainly higher elevations and through The Delta.

SOUTHERN CALIFORNIA

Weak cyclonic flow aloft over the Great Basin will continue to produce cooler than average temperatures along with breezy conditions in a few places. Early this morning, northwest winds of 20-30 mph are blowing across the Kern County Mountains, northern Los Angeles County and adjacent areas of the Antelope Valley. Some gusts to 40 mph will be possible in these areas by afternoon as well as in the Banning Pass. Temperatures today will remain in the 70s in the valleys to the lower 90s in the desert. A handful of showers and thunderstorms will be possible in the Sierras, mainly north of Yosemite National Park. Friday into the weekend, expect a slow warming trend with temperatures climbing back into the mid 80s in the valleys. Night through morning low clouds will be a bit more prevalent which will allow for a tight temperature gradient between the stratus-covered coast and sunny inland areas. Isolated convection will still be possible in the Sierra High Country. Next week, another low pressure area will move into the state. This will result in a return of unseasonably cool weather, widespread stratus in the coast and interior valleys and breezy conditions in the desert. There may be a slightly better chance of convection in the Sierras as well as much of the high desert next Monday and Tuesday. One or two showers may develop in the San Bernardino National Forest next Tuesday as well. The second half of next week into the Memorial Day holiday looks much warmer and drier at this point. However, no offshore winds are expected through the period.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

New Cal OES Law Missions

- **2018-LAW-46792, 05/16/18, 1531 hours:** Fresno County Sheriff's Office is requesting (2) SAR Water Human Remains Detection (HRD) K9 teams to assist in searching for a missing and presumed drowned 18 year old male, who was last seen in the San Joaquin River on 05/12/18. The requested resources are to meet for a 0900 hour briefing this Friday, 05/18/18, at the San Joaquin River Gorge in Auberry. Cal OES Law Enforcement Branch (LEB) is coordinating the request. **Mission Ongoing.**

Emergency Management Assistance Compact

- **2018-Cal OES-46751:** The State of Hawaii requested one (1) Geothermal Subject Matter Expert (SME) from the California Department of Conservation, Division of Oil Gas & Geothermal Resources, to provide support to the volcanic activity occurring in Hawaii. The SME has industry and regulatory experience, as well as knowledge of geothermal wellhead construction, operations, processes, risk management, and mitigation. The SME arrived safely in Hawaii on 05/13/18, and is anticipated to return to California on 05/19/18.

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
